MEMORANDUM FOR THE RECORD

SUBJECT: Director's Instructions re Proposed Legislation to
Protect Classified Info

25X1A

1. In meeting today with the Director, Colby, Houston, and
[REDACTED] the Director instructed that:

a. We not bother with the "assignment of income" or
"forfeiture of annuity" proposals but go for the "intelli-
gence data" and/or "Scarbeck statute" solutions.

25X1A

b. Since proceeding through the "Federal Criminal Code"
process may be unduly time consuming, we should seriously
consider an appropriate amendment to the National Security
Act [REDACTED] noted that heretofore our committees have not
accepted responsibility for legislation involving criminal
penalties, and therefore this possibly may be foreclosed).

c. Houston is to push ahead with Justice regarding the
drafting and related problems, and necessary coordination
within the executive agencies including the White House.

d. We sound out our key committee and staff contacts
informally and keep Houston and Colby up-to-date on results.

25X1A
